

**The second edition of the national research conference on constructions,
economy of constructions, architecture, urbanism and territorial
development with international participation**

**“HUMAN HABITAT AND LIFE QUALITY UNDER NATURAL
AND TECHNOLOGIC RISK CONDITIONS – A
MULTIDISCIPLINARY APPROACH”**

23 September 2011

The conference will be organized by the National Institute for Research and Development in Constructions, Urbanism and Sustainable Spatial Development URBAN-INCERC at the INCERC branch building in Bucharest, Șos. Pantelimon nr. 266, sector 2.

The objective of the conference is to present Romanian research, reuniting in an integrated approach research performed at different spatial scales, from the structural details of constructions to territorial research, including economic, social and environmental issues. General and locale natural and technological hazards imply a synergy of architectural, urban and engineering approaches, considering issues of the management of urgency situations. In this context, results of international research projects carried out by INCD URBAN-INCERC will be presented as well.

The papers will be delivered either as oral presentations, not to exceed 15 minutes, or posters in moderated sessions. There will be a oral poster presentation session, where each poster will be described in 5 minutes.

The topics of the conference are:

1. Research on constructions (moderator: eng. Claudiu Lucian MATEI)
2. Problems of the economy of constructions (moderator: assist. Cezar-Petre SIMION-MELINTE, PhD)
3. Research in architecture, urbanism and territorial planning (moderator: assoc. prof. Vasile MEIȚĂ, PhD)
