

Second Call

NIRD URBAN-INCERC organizes the **22nd edition of the research conference on constructions, economy of buildings, architecture, urban and territorial development**, and NIRD URBAN-INCERC Branch of Cluj-Napoca organizes the **conference dedicated to its 60th anniversary**

EXCELLENCE IN APPLIED RESEARCHES ON THE SUSTAINABILITY OF BUILDINGS

27-28 October 2022

The 22nd edition of NIRD URBAN-INCERC conference joins an anniversary event dedicated to the 60th celebration of its Cluj-Napoca Branch and a presentation of the newest researches in constructions, economy of buildings, architecture, urban and territorial development, focusing on those of Cluj-Napoca Branch. The **objective** of the conference is to stress out the contribution of Cluj-Napoca Branch to the advancement of the field. The **location** of the event is: Faculty of Constructions, Technical University of Cluj-Napoca – Aula “Tertea”, str. George Barițiu nr. 25 et. 1, Cluj-Napoca.

The event will be organized by the National Institute for Research and Development in Constructions, Urbanism and Sustainable Spatial Development URBAN-INCERC having as main academic partner Technical University of Cluj-Napoca, and as academic partner Babeș-Bolyai University as two events, i.e., a scientific conference with oral presentations made by NIRD URBAN-INCERC researchers, a poster sessions, workshops dedicated to presenting and discussing the results of research projects of NIRD URBAN-INCERC, and a festive conference dedicated to the 60th anniversary of Cluj-Napoca Branch of NIRD URBAN-INCERC, both taking place on 27 October 2022. The 2nd day, 28 October 2022, is dedicated to technical visits. Within the conference, posters can be presented only by registered attendants. The **registration** is free of any charge and can be done **only** through the form available at: <https://docs.google.com/forms/d/1lzJZSV7JfXrM0ecGfJVExGfmQxSbC54NoH1ponD1TPM/viewform>
Attention! After the registration, the browser will display a confirmation page. **This is the only confirmation of your participation;** no e-mail confirming the registration will be received. However, the organizers will confirm the reception of materials to be presented and/or published, notifying the corresponding author only if they are acceptable or indicating the required changes.

Taking into account that the event presumes the delivery of presentations (supporting text and audio) and publication of supporting materials (abstracts and full papers), the organizers warn potential attendants on the fact that the management of the two is done **independently**. In more details, the program that will be available on **21 October 2022** is based **exclusively** on the online registrations and submission of materials. If authors submit articles or full papers, they are not found on the website unless the authors register them through the dedicated website and submit the supporting materials (supporting text and audio) by the deadline. Similarly, the materials submitted for publication do not use any information provided during the registration of presentations.

In order to present an oral communication or poster, each participant must register no later than **14 October 2022**. In addition, NIRD URBAN-INCERC offers attendants the chance to submit their work (abstracts and full papers) to its publications, available at <http://pub.incd.ro/>, as described below. The order of publications in the list corresponds to increasing importance and

exigencies. In any case, their publication is **conditioned** by the **acceptance of reviewers** and **strict observance of guidelines**.

- **Abstracts** (written in English and Romanian by the Romanian authors and English by the foreign authors) are published in “*Conferința de cercetare în construcții, economia construcțiilor, urbanism și amenajarea teritoriului. Rezumate ale lucrărilor*” (*Research conference on constructions, economy of constructions, architecture, urbanism and territorial development. Abstract Proceedings*), vol. 22, ISSN 2343-7537, indexed in *CiteFactor*, *ProQuest*, *Ulrich’s Web*, *Scipio*, *WorldCat* and *Europa World of Learning / Routledge* – website: <http://pub.incd.ro/AP/index.htm>. The deadline is **7 October 2022**.
- **Full proceeding papers** are published in “*Lucrările conferinței de cercetare în construcții, economia construcțiilor, urbanism și amenajarea teritoriului*” (*Paper proceedings of the research conference on constructions, economy of constructions, architecture, urbanism and territorial development*), vol. 22, ISSN 2393-3208, indexed in *CiteFactor*, *ProQuest*, *CEEOL*, *Scipio* and *Ulrich’s Periodicals Directory* – website: <http://pub.incd.ro/PP/index.htm>. The deadline is **7 October 2022**.
- **Full articles** are published in the journal *Constructions*, ISSN 1221-2709 (indexed with 31 databases and libraries) – websites: <http://constructii.incd.ro/> and <http://pub.incd.ro/C/index.htm>. The deadline is **14 October 2022**.
- **Full articles** are published in the journal *Urbanism. Architecture. Constructions*, ISSN 2069-0509 (indexed with 61 databases and 100 libraries – websites: <http://uac.incd.ro/EN/> and <http://pub.incd.ro/UAC/EN/index.htm>). The deadline is **14 October 2022**.

In order to make the Abstract and Paper Proceedings available to all attendants, no submissions will be accepted for publication after the deadline, although participants registered after **7 October 2022** will be allowed to present their work. The deadlines for journals can be extended. In choosing the journal, civil engineers must account for the fact that *Constructions* requires very technical papers, with a rigorous mathematical substantiation proved by equations, and describing experimental results, while *Urbanism. Architecture. Constructions* has a broader audience and accepts more general papers, which do not necessarily include equations or experimental results. Furthermore, *Urbanism. Architecture. Constructions* requires authors a rich bibliography, including at least 25 titles, out of which 90% should be published (journal articles, books and book chapters) and at least 80% should be ISI or Scopus journal articles, and strictly enforces the observance of Author Guidelines. Along with the strict observance of the Author Guidelines, these are conditions and not recommendations; if they are not met, no article is accepted to the review process.

Guidelines

Please do not submit any document, such as Power Point presentation, to the organizers. The only documents that can be submitted are the abstracts and full papers. The only acceptable format is Word 2003 or previous (DOC). **Documents submitted in other formats (DOCX, PDF) will not be taken into consideration.**

Published materials (abstracts, proceedings papers and articles) must meet the Author Guidelines specified on each publication’s site. Non-compliance results in an automatic rejection from publication, although authors can present their work (supporting text and audio) in the conference.

Posters will be sized A0, use the layout available at <http://conf.incd.ro/Doc/Sablon.ppt> and include the name of conference, title, authors and affiliations, followed by the contents structured using the following sections: 1. *Context*, 2. *Materials and methods*, 3. *Results and discussions*, 4. *Conclusions*. If this structure is not suitable, the second and third chapters can lack or be replaced.

Language. Romanian authors will draft their presentations and full proceedings papers in Romanian or any foreign language, abstracts in Romanian and English. Foreign attendants will write the abstracts in English, implying a permission given to the organizers for translating them in Romanian, if needed (based on the attendance), and full proceedings papers in English or French. Full journal papers will be submitted in English for all journals. Posters will be presented in Romanian, English or French.
